FABRICS

Crafted from the earth itself, organic cotton hand-spun and hand-woven fabric embodies sustainable luxury. Cultivated without harmful chemicals, the organic cotton fibers are meticulously spun by hand, retaining the inherent character of the material. This yarn is then hand-woven into a unique and beautiful fabric, further enriched by natural dyes extracted from plants, minerals, or insects. The entire process, from seed to finished product, is not only gentle on the environment but also celebrates the artistry and dedication of human hands. This fabric, ultimately biodegradable, offers a guilt-free indulgence in exquisite textiles and a commitment to a healthy planet.

PLAINS

Plain weave, the simplest and least expensive of the three basic weaves, uses parallel threads in a criss-cross pattern to form a square grid.

USES: Clothing, Drapery

PROPERTIES: Durable, Soft, Strong , Comfortable, Breathability, Absorbency

QUASHING

Combining longer floats in two quadrants with plain weave in the others, this weave offers both structural firmness and superior absorbency.

USES: Clothing, Drapery

PROPERTIES: Durable, Soft, Strong , Comfortable, Breathability, Absorbency

WAFFLE

Warp rib, a 1/1 filling interlacement with texture in warp direction, requires at least two heald frames and uses weft yarns equal to the weave formula's sum.

USES: Clothing, Drapery

PROPERTIES: Durable, Soft, Strong , Comfortable, Breathability, Absorbency

MATTE

Matt weave, with squares visible on both sides and equal warp/weft threads, is also called basket, hopsack, or full panama.

USES: Clothing, Jackets, Home Lillen

PROPERTIES: Durable, Soft, Strong ,
Comfortable, Breathability, Absorbency

TEXTURED

Minimal interlacement in these weaves creates a lustrous, smooth surface, allowing a cotton warp to mimic the luxurious feel and appearance of silk.

USES: Clothing, Jackets, Home Lillen

PROPERTIES: Durable, Soft, Strong ,
Comfortable, Breathability, Absorbency

SELF DESIGNED

Similar to plain weave but using grouped threads, basket weave creates a textured, checkerboard fabric that's flatter, stronger, and more pliable despite being slightly less stable.

USES: Clothing, Jackets, Home Lillen

PROPERTIES: Durable, Soft, Strong ,
Comfortable, Breathability, Absorbency

SLUB

Slub fabric usually goes through a weaving process where it is twisted to create irregular twists and ridges.

USES: Clothing, Jackets, Home Lillen

PROPERTIES: Durable, Soft, Strong ,
Comfortable, Breathability, Absorbency

COLOUR PALATE

The background image is a close-up, slightly blurred photograph of hands operating a traditional spinning wheel. The hands are positioned to spin cotton, with one hand holding the fiber and the other turning the wheel. The cotton is being spun into a thick, white thread. The overall tone is warm and artisanal, emphasizing the handmade nature of the product.

SCARFS

Indulge in sustainable luxury with a hand-spun and hand-woven organic cotton scarf. These eco-friendly scarves, crafted from naturally dyed fibers, showcase both environmental consciousness and artisanal skill. The organic cotton, grown without harmful chemicals, is meticulously spun by hand, creating a unique and soft fabric. Natural dyes, extracted from plants, minerals, or insects, imbue the scarves with vibrant and earthy hues. Biodegradable and gentle on the environment, each scarf is a testament to both sustainable practices and the enduring beauty of handcrafted textiles.

PLAINS & CHECKS

Classic comfort meets handmade charm in this timeless plain weave scarf.

USES: UNISEX

PROPERTIES: Durable, Soft, Strong , Comfortable, Breathability, Absorbency

STRIPES

Handcrafted with alternating yarn colors, this woven scarf boasts unique stripes for a touch of timeless charm.

USES: UNISEX

PROPERTIES: Durable, Soft, Strong , Comfortable, Breathability, Absorbency

DABI

Own a piece of artistry - handwoven jacquard scarf, each thread a story in sustainable, naturally dyed luxury.
